Catalogue 2022

With over 50 years in the scale modelling business, Artesanía Latina has always shown a great passion for innovation and making this hobby accessible to a larger audience, from entry-level kits up to the most challenging models for experts.

Our team, made of great men and women, is not only creating new and better kits with lots of details and added bonuses, but it is also redesigning our all-time best sellers adapting them to the 21st century. Artesanía Latina can achieve this by combining the latest 3D technology and the years of experience of our master modellers.

Following this path, our new generation of kits ditches the outdated paper instructions for multimedia and online instructions with video-tutorials and hundreds of hi-res pictures to offer our users the best building experience so anybody can achieve great results.

Besides the user experience with our brand, we are also taking several actions to reduce our carbon print: avoiding exotic woods, no chemical colouring for our metal parts, reducing the volume of all our packaging, avoiding paper instructions, and using eco-friendly cartons for our boxes.

In addition to our renowned kits, Artesanía Latina also offers a great range of tools and fittings (many of them with exclusive designs). Discover them on our website: www.artesania latina.net

HMS ENDEAVOUR

This **new 1/65 scale model** has been completely redesigned following the most accurate documentation available and replicating as much as possible the real ship and her appearance. Includes over 900 wood, diecast and photoetched parts to achieve an astonishing detail level within reach of any modeller thanks to the most detailed step-by-step multimedia assembly guide you can imagine (**over 500 pages and 3000 pictures, including video tutorials**). Worth mentioning is the use of precious oak veneer to complete the hull planking, and the full set of pre-sewn sails included, ready to be placed on the model. A wooden exhibition base with metal nameplate is included.

To complete this new **21st century assembly experience**, both model and exhibition stand are prepared for optional LED lightning installation, and a set of figurines and accessories set is available to bring life to your **HMS Endeavour** (these items are sold separately).

VASA

SWEDISH WARSHIP

THE SWEDISH WARSHIP VASA is part of that very short list of ships that every model-building hobbyist dreams to build.

Our kit is the most accurate replica of the real Vasa, salvaged, restored and displayed at the Vasa Museet in Stockholm.

Artesanía Latina has carefully designed everything in this kit to offer you not only the most detailed and accurate replica but also a pleasant building experience. We will guide you throughout the process with videos and hundreds of HQ pictures. Once finished, you will be able to proudly show off your museum quality model to your peers.

The Artesanía Latina's Vasa kit has over five hundred of die-cast parts, premium quality wood, photo-etched details, pre-sewn sails and as bonus gift (included in the kit), a wooden base with metal name plate and 6 metal figurines that will ensure an even more realistic finish to the model.

SOLEIL ROYAL

1669

THE FRENCH WARSHIP SOLEIL ROYAL was part of King Louis XIV's Navy.

Artesanía Latina has carefully designed this kit to offer you not only one of the most detailed replicas but also a pleasant building experience. We will guide you through the process with videos and HQ pictures. Once finished, you will be able to proudly show off your museum quality model made out of wood and metal parts.

For a more realistic touch, this kit includes LED lights and metal figurines, as well as plenty of decorations.

The kit also comes with a wooden stand with nameplate so you can exhibit your finished model.
